

# Assembly Instructions

## Assembly Instructions

Instructions for maintenance, use and cleaning:

For general cleaning,  
dust periodically with a soft, clean cloth.

Wipe the surface of the armchair with a microfiber cloth  
lightly dampened with warm water on a weekly basis  
and dry it with a dry cloth. The ideal is to have a  
dedicated cloth just for cleaning the armchair.

Avoid exposing the chair to direct sunlight, as well as to  
heat sources such as stoves or radiators, since the  
material could be affected.
